BV-TAN LIST

1. BV-TAN LIST

BV-TAN LIST is a mix of vegetable tannins with dispersing agents. The product is beige coloured and it is especially developed for production of soft types of vegetable leather types i.e. automobile or furniture upholstery and soft types of upper leathers. In tanning it penetrates in cut of hide/skin easily. The leathers tanned with BV-TAN LIST are soft and very light coloured and keeps natural texture. The products have very high light fastness.

BV-TAN LIST can also be used in retannage of all kinds of leathers that require fullness, good buffing and print retention properties. The leathers tanned or retanned with BV-TAN LIST can easily be dyed to pastel shades because of its light colour.
